

Cross-module messaging substrate — three surfaces share one Socket.IO transport;
DMs bind to other modules via (context_type, context_id). [messageService.js / groupMessages.controller.js / socket.js, draft §5.7]

Snapshot: 22 DMs concentrated in the 2026-02-05 to 2026-02-28 burst; 18 message_reply notifications attest to that burst. All DMs is_read=true.
